Editor-in-Chief
Revista Mexicana de Biodiversidad

Dear Dr. Fernando Álvarez Noguera

Please find attached our manuscript entitled “***Diaphanocephalus galeatus* (Rudolphi, 1819) (Nematoda: Diaphanocephalidae) parasite of *Salvator merianae* (Duméril and Bibron, 1839) (Squamata: Teiidae) in southern of Brazil**” for a possible publication in the journal. The Research note records *Diaphanocephalus galeatus* (Rudolphi, 1819) (Nematoda: Diaphanocephalidae) in *Salvator merianae* (Duméril and Bibron, 1839) (Squamata: Teiidae) for the first time for the Pampa biome, characterizing the occurrence southernmost in Brazil. The manuscript elaboration followed the guidelines of the Revista Mexicana de Biodiversidad and it was revised by a professional English speaker.
