September 07, 2015 Playa del Carmen, QR Mexico jxochitl@yahoo.com

To whom it may concern,

By this means I confirm that I reviewed the final version of the article entitled "Nesting in trees and slopes of karst rock of a colony of Military Macaw" written by Ana Contreras. I am an English native speaker with a college degree in Biology and an MA in translation. You will find my professional ID substantiating my master's degree in translation attached to this letter.

Sincerely,

M. Tr. Judith Xochitl Ponce Wainer
